

Cartridge Adapters

Plastic
One-way valve
Length of the adapter: 30 mm

Cartridge Adapters PRO

Aluminium
One-way valve
Length of the adapter: 40 mm

Cartridge Adapters Flex

Plastic
One-way valve
Length of the hose: 60 mm
Burst pressure of the hose: 60 Bar

Cartridge Adapters PROFLEX 45°

Metal
One-way valve
Length of the hose: 120 mm
Burst pressure of the hose: 60 Bar

Proudly Made in Italy.

Refrigerant leaks?

ERRECOM

AIR CONDITIONING & REFRIGERATION CHEMICAL SOLUTIONS

Extreme

Leak Stop for AC/R Systems

What is it?

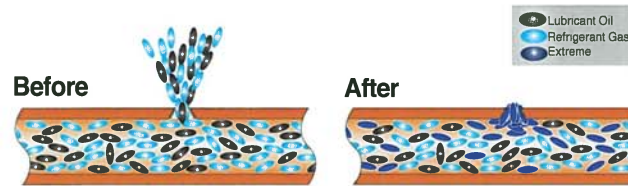

EXTREME is an essential product to solve all problems related to small refrigerant gas leaks occurring in Air Conditioning and Refrigeration systems.

How does it work?

EXTREME locates the refrigerant gas leak and permanently seal it, not reacting with humidity and oxygen. EXTREME repairs leaks with a maximum dimension of 0.3 mm.

Benefits:

- Permanently seals refrigerant gas leaks.
- Compatible with all refrigerant gases, including CFC, HFC and HCFC.
- Visible to any UV lamp.
- Significantly reduces compressor noise.
- Polymer-free.
- Ideal for preventative maintenance.
- Does not clog the compressor.
- Does not clog refrigeration system components.

NEW

Extreme White

Specific Leak Stop for R600 - R290 Refrigeration Systems

What is it?

EXTREME WHITE is an essential product specifically formulated to solve all problems related to small refrigerant gas leaks occurring in refrigeration systems with R600 - R290 refrigerant gas.

How does it work?

EXTREME WHITE locates the refrigerant gas leak and permanently seal it, not reacting with humidity and oxygen. EXTREME WHITE repairs leaks with a maximum dimension of 0.3 mm.

Benefits

- Permanently seals refrigerant gas leaks.
- Significantly reduces compressor noise.
- Polymer-free.
- Ideal for preventative maintenance.
- Does not clog the compressor.
- Does not clog refrigeration system components.
- Does not affect compressor performances.
