

The Pro Gold 94

Benefits You Can Live With

- Cleaner air to breathe
- Less housecleaning
- Keeps heating and cooling system clean for improved efficiency and lower cost
- Removes pollen, dust, dander, mold and other airborne pollutants with 94% arrestance
- Anti-microbial
- No harmful ozone emissions
- Environmentally friendly, washable
- No electricity required
- High dust and particle holding capacity
- Standard and custom sizes available
- Reasonably priced
- Limited lifetime warranty

Specifications: (ASHRAE 52.1)

Peak Arrestance 94%
 Initial Resistance 0.12 w.g.
 Dust-Holding Capacity..... 155 g

40 Standard Sizes: (Inches)

10 x 10	14 x 14	16 x 25	19 x 27
10 x 20	14 x 20	16 x 30	20 x 20
10 x 24	14 x 24	16 x 32	20 x 24
10 x 30	14 x 25	16 x 36	20 x 25
12 x 12	14 x 30	18 x 18	20 x 30
12 x 20	15 x 20	18 x 20	20 x 32
12 x 24	15 x 25	18 x 24	21 x 21
12 x 25	16 x 16	18 x 25	24 x 24
12 x 30	16 x 20	18 x 30	24 x 30
12 x 36	16 x 24	18 x 36	25 x 25

Standard sizes listed have a nominal thickness of 1" (7/8" actual) and are undersized by 3/8" in both dimensions, as is industry standard.

Custom Sizes:

Custom sizes are available up to 1250 square inches.

Pro Gold 94

Premium Quality Electrostatic Air Filter

*Removes Pollen, Dust and Other Pollutants
for Cleaner Indoor Air*

Permanent Filter - Never Needs Replacing

Lifetime Warranty

*Heavy-Duty Extruded Anodized
Aluminum Frame*

*Anti-Microbial Materials Inhibit
Bacteria & Mold*

**AVAILABLE ONLY THROUGH
HVAC PROFESSIONALS**

You Can Have Clean Indoor Air All The Time

Most people today spend between 60% and 90% of their time indoors, yet the quality of indoor air is frequently ignored. The standard disposable air filter found in most heating and ventilation systems is designed only to protect the HVAC equipment, not human health. Better quality pleated filters are available, but can easily cost more than \$100 per year.

The Evolution Air Pro Gold 94 electrostatic air filter provides superior air cleaning in a permanent filter. The Pro Gold 94 cleans the air using static electricity — a naturally-occurring phenomenon. An electrostatic charge is generated by air flowing through a maze of static-prone fibres. Airborne particulate is attracted and held by the static charge until released by washing.

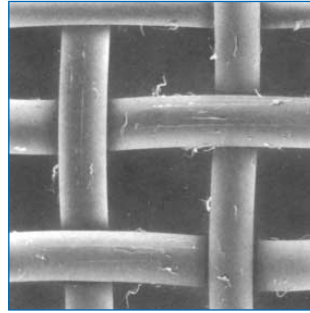

Pro Gold 94
Electrostatic Filter

Typical Disposable
Fibreglass Filter

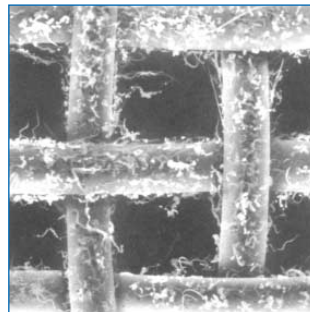

The Pro Gold 94 offers 10 times the arrestance of a typical disposable fibreglass filter.

Electrostatic Filtration

The illustrations below show the typical dust loading pattern of the electrostatic fibres within the Pro Gold 94. This unique load pattern improves air flow while providing maximum filtration.

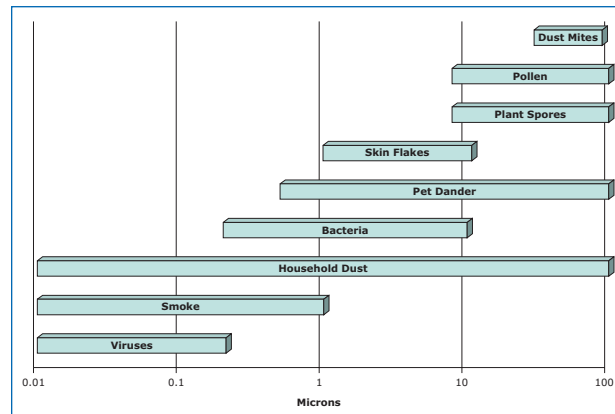

Clean Filter

Dirty Filter

Common Airborne Pollutants

Easy Installation

Simply remove your present inefficient disposable filter and replace it with a permanent Pro Gold 94 electrostatic air filter. No special electrical hookup or system modification is required. It's just that simple! It goes to work for you immediately and will give you years of trouble-free service.

Easy Maintenance

On a monthly basis (more frequently if needed) follow these steps:

- Simply slide the filter out of your duct
- Flush with water in opposite direction of air flow, then rinse other side
- Spray with Lectro Clean or another alkaline detergent
- Rinse thoroughly to remove remaining dirt
- Drain excess water and reinstall
